NEXT – you need to select the correct size for your daughter

The **waist** needs to be measured around the line of the belly button (not the hips). Please ensure that when you are measuring your daughter, she stands with correct ballet posture i.e. engaging her abdominals, so that size will be appropriate for when she is dancing rather than when she is relaxed. Also, if your daughter measures half an inch larger than one of the waist sizes offered online (e.g. 23.5"), then we suggest you **go down to the lower size** (i.e. select a 23" skirt), so that it stays on the waist and does not drop down onto her hips when she is dancing as could be the case with a 24" skirt.

The **length** should be measured from the belly button to mid-shin. If your daughter is in the middle of two sizes on the length, then we suggest selecting the **longer** option online so that the skirt lasts longer.

Please note that if none of the Katz sizes are suitable for your daughter then firstly, there are a few of the older style National skirts available in the school second hand uniform sale, please contact sldsuniformsale@yahoo.com. Also, it may be possible for Duo Dance to place orders for National skirts which are larger sizes than are offered by Katz, but they will be significantly more expensive than Katz.

PAYMENT – skirts are £29.99 plus p&p £3.50

Please ensure that you take great care when measuring your daughter, choosing ribbon colours and placing your order as Katz will not be able to cancel your order and once you have received your skirt, it will be **non-refundable and non-returnable**.
